

MCH Blood Test Report

Patient information

Name: Sabrina Welder	
Gender: Female	Date of birth: April 8, 1993
Date of test: February 12, 2023	Medical record number: 00-991-23

Clinical history

Patient has had no significant clinical history other than routine check-ups, which have always had good results with nothing to worry about.

Test results

Item	Result	Reference range (as indicated by laboratory)
Hemoglobin (Hb)	14.2 g/dL	13.5 - 17.5 g/dL
Red blood cell count (RBC)	5.2x10 ⁶ /μL	4.5 - 6.0x10 ⁶ /μL
Mean corpuscular hemoglobin (MCH)	27.3 pg	27.0 - 33.0 - pg

Interpretations

All the results fall within the normal reference ranges. This indicates that the levels of hemoglobin, red blood cell count, and mean corpuscular hemoglobin are within the expected healthy measurements that a patient should have.
